MONEY, BONDS AND STOCKS.

The New York Market Continues Very Dull, with a Builish Tendency. NEW YORK, July 2.-Money on call was easy at 102 per cent, the last loan being made as 11, closing at 11 22

Prime mercantile paper, 326 per cent. Sterling exchange was dull but steady at \$4.862 for 60 days and \$4.884 for demand. The total sales of stocks to-day were 71,373 shares, including the following: Delaware,

Lackawanna & Western, 2,800; Erie, 2,500; Lake Shore, 2,910; Northern Pacific preferred, 4,500; Oregon Transcontinental, 2,270; Reading, 7,550; St. Paul, 8,850; Union Pacific, 20,210. The stock market opened the week without change in its character, being still intensely dull, with fluctuations confined to the narrowest limits and of little or no significance. The dealings were almost entirely professional, and outside of those in Union Pacific developed no feature worthy of mention. There was a hopeful feeling in Union Pacific this morning, upon the anoppose the calling up of the funding bill, and some improvement was made in the price of the stock, but the filibustering operations of the opponents of the bill disheartened the holders of the stock, and a material decline followed. The movements in the rest of the list were confined to small factions only and possessed no significance except in the Northern Pacific and Oregon stocks, which were strong on a very limited business on the recent good showing of the earnings. First prices were generally a shade lower than Saturday's final figares, and further progress was made in a few stocks, notably St. Paul and New England, but the movement amounted to small fractions only. and the list afterward developed a stronger tone, though the Northern Pacific, Union Pacific the Oregon stocks were the only ones attracting any attention.

After noon, Union Pacific gave
way and the most of the list sympathized to a
limited extent, though the decline ended at 1 o'clock. The market after this time displayed absolutely no feature whatever and the list was traded between the parrowest limits, the business being the nearest approach to stagnation yet seen. The market finally closed intensely dull but steady at about the opening figures. The temper of the room was throughout moderately bullish, and the professionals, until the break in the Union Pacific, were inclined to

divided between gains and losses. Oregon improvement rose 12 and Pullman 13.

The railroad bond market was equally featureless, the business amounting to \$880,000. The market was rather heavy, though the changes in quotations were for the smallest fractions, except in a very few issues. International seconds rose 4 per cent.

CHICAGO, July 2.—Those who anticipated large deliveries of wheat this morning were

to under August, but soon advanced nearly to, while August moved up but a fraction, putting the two futures together at 79 to, and later they were together at 79 to, and not a full to apart for the rest of the forenoon. A part of the general strength in the pit early was due to cables, which quoted to better prices at Liverpool. There was to advance at New York also. After the first hour the market was an indiffer-After the first hour the market was an indifferent one at this point. The range tor July, to near the close, was 79½c, the opening and lowest price, and 79½æ79½c, the outside price. August sold within the narrow limit of 79½c and 79½c. The visible supply figures posted about noon gave a decrease in the visible supply of 983,000 bu, somewhat larger than expected, but not large enough to do more than stiffen the market. The deliveries of corn were very large this morning, being estimated at about 2,500,000 bu. On account of the character of the holdings, the deliveries had a firming tendency on the market, as the stuff passed from the hands of a combination into the hands of parties who are likely to move the corn. The decrease in the visible supply was large, 1,274,-000 bu. The market for the day was marked by strength early, with prices about ic higher, by strength early, with prices about it higher, a weakness about noon which took prices to the closing points of last weak, and a rally at the close to about the best points of the day. July sold at 47½ @ 47½c, and closed at 47½c. August started at 48½c, sold at 48½c down to 48 @ 8½c, and closed at 48½c. Oats were very quiet, but the general condition of the trade was fairly favorable, and a steady feeling prevailed. Arrivals were rather small, the deliveries on July contracts were light, and there was quite a liberal decrease in the visible supply. While other markets showed steadiness these several influences had no special effect, owing probably to there not being much of a speculative trade. Fluctuations in prices were too small to be important. A comparatively light trade was reported in the

market for hog products, and the feeling was easy during the greater portion of the day. The deliveries in July contracts were light, excepting of short-rib sides, and had little effect on the market. Operators are calculating on an in-crease in the supply of all kinds, in the monthly statement of stocks on hand, excepting of mess pork and pickled meats. Prices ruled lower on all the leading articles, and the market closed quiet at outside figures. Contracts were transferred at 71 210c, difference per month on mess pork, .07te on lard and .07t @.10c on short-rib sides. The leading futures ranged as follows:

The Foreign Grain Trade. LONDON, July 2.- The Mark Lane Express, in its review of the British grain trade during the past week, says. "English wheat in the provincial markets is steadier and an occasional advance of 6d is reported where the supplies are small. The sales of English wheat during the week were 34,899 quarters, at 31 shillings 4d, against 15,656 quarters at 35s, during the corresponding period last year. Foreign wheat does not improve at Liverpool, prices being 1s 1d per cental lower. Flour is dull at the recent decline. Corn is weaker; mixed American is quoted at 22s 6d ex. ship. Oats have gained 3d. Linseed is a fraction dearer at 35s 5d, for Calcutta ex. ship. Twenty four cargoes of wheat arrived; four cargoes were sold; two were withdrawn, and twenty remain. At to-day's market wheat was steadier, but values were unchanged. The inquiry for flour was dull, but sellers maintained prices. Flat corn was unchanged; round was 3d cheaper. Oats were in demand at 3d to 64 dearer.

INDIANAPOLIS, July 2. The local market was quite active to-day, and several changes in quotations will be noticed. Poultry advanced one cent per pound. Eggs

and a Strong Tone to Prices Generally.

of actual stuff is claimed on the market for Brazil grades, but with evidence of continued caution on the part of buyers and evident indisposition to invest, except where the depletion of stock makes a move of that kind an absolute necessity. There still seems to be an idea that after the speculative complications cuiminate, coffee is to be cheaper, and those who can do so hold off for the drop. Holders, how-ever, feel differently, and the offering is com-paratively light, though in the absence of a fair test it is best for the present to consider valuetions as nominal. Some rumors were current of firm offers at lower rates, but they could only be traced to a parcel of damaged stock, and are worthy of notice by way of explanation." Dry-goods men had a busy day; a number of buyers were in and July opens under favorable auspices for a summer month. The hide market shows no signs of improvement. The flour market is more active but prices are no better. The wool market is steady and unchanged, and the present conditions of the wool market will likely continue for some weeks to come. Other markets present no new features.

The local market was decidedly tame to-day, bidding on 'Change slow and little interest shown in any cereal. Track bids to-day ruled as follows:
